PSTN

## HOME AUTOMATION FEATURES
Local Lighting & Appliance Control

iCARE supports home automation control systems to interact with air conditioners, lights, electric window blinds, garage door etc…

### WIRELESS HOME & PERSONAL CARE

iCARE provides a user friendly solution for seniors or physically less able people, requiring the care and reassurance needed to allow them to remain living in their own homes.

iCARE can be used to raise an alarm call from anywhere in the home by simply pressing the FW-Panic & open a free two way voice communication.

## iCARE IS AN AMAZING ALARM SYSTEM DESIGNED TO FIT ON YOUR WALL LIKE A PIECE OF ART.

With iCARE you can enjoy the most exciting experience in security, convenience and control. The graphical display of the main unit and the keypads make customers daily tasks easy and centralized at their fingertip control.

Simple to learn and simple to use, the iCARE is powerful enough for any residential application including alarm, home automation and personal care via any communication path you choose.

## MONITORING

Advanced solution for alarm transmission and visual verificatin to CMS by TCP/IP & GSM/GPRS.

## MMS & VIDEO STREAM

Pictures or video stream transmission to end user via Internet/GSM

## WEB ACCESS

iCARE offers the ability to completely control the security system remotely over the Internet using web browser.

### Proximity Tag for your children safety.

CC-Keypad allows to quickly open doors and gates by simply holding the proximity tag in front of the keypad.

### Pet Immunity allows your pets to move freely in all areas of the house.

The CC PIR Motion detector allows to distinguish humans from household pets up to 25 Kgs . It will not trigger an alarm if your pet walks into the coverage area while the system is armed.
